INDEX

TO VOL. XX,

ELECTRICAL REVIEW,

13 PARK ROW, NEW YORK.

FEBRUARY 27, 1892, TO AUGUST 20, 1892.

A WEEKLY RECORD OF THE PROGRESS OF ELECTRICAL SCIENCE.

ARTICLES MARKED * ARE ILLUSTRATED.

A

Agricultural Operation by Electricity, 4
American Institute of Electrical Engineers, 5, 64, 161, 186, 207, 219
American Institute Lectures on Electricity, 5
*American High Speed Engine, The, 15
American Machinist, Article From the, 19
Albany Letter, Our, 20
*"Allied Powers, The," by D. Ashworth, 21
*Ashworth, D., Before the N. E. L. A., 21
Attendance at the Convention, 31
*Aluminium Patent, Broad, 40
American Engine Company, 44
*"Alternate Current Motors," by William Stanley, Jr., 45
"Accumulators for Telegraph Work," by C. Grawinkel, 55
Akron Letter, Our, 58
Austrian Method of Execution, 71
Arc Lighting Figures, 71
*Alternator Constructed by the Brush Electrical Engineering Company, 84
*Austin & Meyers Electric Motor, The, 85
Air Conveyance, The Practicability and System of, 80, 86
*Armature, Ring, 97
American Bell Telephone Company's Annual Meeting, 98
Accumulator Company against The New York and Harlem Railroad Company, 105, 118
Abbett, Gov., Deals a Blow at the Trolley Roads, 105
American Electrical Story Wanted, An, 120
Accumulators, Self Discharge of, 127
Assignment Set Aside, Wants an, 142
*Actors' Fund Fair, 158, 162
Appropriations for Lighting Are Scant, 165
Anarchists and Electric Cars, 165
Alderman and the Electric Lights, The, 172
American Employers' Liability Insurance Company of New Jersey, The, 187
Ammonia for Electric Shock, 196
Ampere, 198
Apes' Language to be Phonographed, The, 198
*Adams, Dr. Wellington, Before the N. Y. Electric Club, 201, 206, 230
"Advance of Electricity, The," 202
Ampere-Centimetre, A Measure of Electro-Magnetism, 208
American Street Railway Association, 209
Allis Engine for the World's Fair, 210
American Society of Civil Engineers, 215
Association of Railway Superintendents of Telegraph, 217
American Chemical Society, 238, 323
*Arrester, Lightning, 244
American Projectile Company, 251
*American Feed Water Heater and Purifier, 254
American Electrical Works, 263
American Bell Telephone Company Granted an Injunction, 265
Anything for a Quiet Life, 268
Atlantic Cable, The, Was the First Insured? 270
A Painful Error, 276
American Electrical Works' Clam Bake, 282, 299
Advertising, Its Value, by Edward A. Oldham, 280
Anaconda Mining Company, 281
*Anchor, The Gravity Copper, 292
Advance Information, 271, 291, 303, 315, 327, 328, 331, 340
American Electro-Therapeutic Association, 293
American Machinist Quoted, 298
Aurora Borealis, Exhibition of the, 298
Accumulators, Thin Active Coatings in, 305
Association of Edison Illuminating Companies, The, 307, 310, 331
*American Type Telegraph, The, 309
Athens, Greece, Grounding of Neutral Wires, 314

B

*Brush Electric Company's Plant, 1
Buffalo Convention of the N. E. L. A., 4, 15, 18, 23
Boston Letter, Our, 5, 20, 58, 67, 81, 93, 107, 121, 133, 159, 171, 183, 207, 231, 243, 257, 271, 285, 299, 311, 335
*Bunnell's Adjustable Extension Sounder Support and Resonator, 8
*Box, Holtzer-Cabot Starting, 13
Brooklyn Railway Contract, The, 19
Buffalo Banquet, The, 33
*Buoys, Electric Lighted, 35, 38
Bibber, Chas. E., Experience of, 37
Brush Electric Co. vs. United States Electric Lighting Company, 40
*Bradley, Charles S., Aluminium Patent, 40
*Box, Cut-out, 41
Batteries, Storage, 52
Bell Telephone Stock, New, 52
Berthelot, D., Electrical Resistance in Connection with the Neutralization of Acids, 53
Bi-Telephone Receiver, The, by E. Mercadier, 54
Barrett, John A., on Microphones. 54
Brush Electric Co.'s Annual Meeting, 65
*Belts Are Made, How, 73
Brooklyn's Electric Railway Contract, 77
Burial of the Wires, The, 82
Belt, Canada's Big, 85
Brush Electric Co. and the Consolidated Electric Storage Co. vs. the Accumulator Co., 85
Bourne, H. Bleckey, and W. Fox Bourne, in the London *Electrical Review*, 90, 92
Band Playing in London Heard in Paris, 91
*Bailey Current Controller, The, 94
Baker, an Enterprising, 98
Bracken, Wm., Communication from, 118
Baker's Burglars, 119
*Bradley's Electrical Surgical Instrument, 122
*Bernstein's Electric Fan Motor, 122
Brown & Sharpe's Enlargement, 137
Blum, Benjamin, against the Wenstron Consolidated Dynamo and Motor Company, 142
Barney, F. M., A New Hydraulic Clutch, 143
Booth, W. H., on the Utilization of Wind Power, 150
Blaine and the French Cable Company, 151
Berlin's Underground Railway, 153
Bell Fraud, An Electric, 154
*Bell, Varley Electric, 161
Brush Electric Company's Souvenir, 163
*Bogart's Electric Gas Lighter, 172
Berrenberg, Adolph, Article on Vacuum in Lamp Bulbs, 183
Bleyer's, J. Mount, Lecture Before Bellevue Hospital Medical College, 186
Buffalo Electrical Society, 187
*Box, Paul's Resistance, 196
Barthold, Victor M., Communication from, 195
*Burton and Angell's Flexible Electrode, 197
Brush Company Wins Again, The, 198
Bauer, A. H., Before the American Institute of Electrical Engineers, 208
Brush Company Wants to Withdraw, 209
*Bath, An Electric Light, 213
Badge of the N. E. L. A., 214
Babcock & Wilcox Boiler Company, 215
*Brown & Sharpe's No. 8 Plain Milling Machine, 228
*Boiler Connections, 228
Brush Electric Light Company vs. the City of Cincinnati, 239, 265
*Bacon, Thompson and Knight, Before the American Institute of Electrical Engineers, 240
Bogart, S. S., Before the Railway Telegraph Superintendents, 249
Bliss Company's Catalogue, 249
*Bernstein Fan Motor, 254
*Ball Engine for Railway Service, 255
Baylis, Mr., on Multiple Switchboards, 258
*Badt, F. B., Before the American Institute of Electrical Engineers, 259
Ball Engine Co., 263
*Bliss Automatic Friction Clutch, 265
*Benjamin's, Dr. Geo. H., Patent, 269
*Burch, Edward P., Before the American Institute of Electrical Engineers, 272
Beany, H. J., Escaped Uninjured, 274
Berlin Iron Bridge Co., 290
Battery, Primary, 298
Battery, An Iron Gravity, 314
Bartlett's Beautiful Brochure, 314
Belgians Want an Electric Railway, 317
Burghardt, Dr. C. A., on Purification of Sewage, 322
*Battery, a New Telephone, 333
*Bracket, Improved Pull Over, 333
Balloon in War, The, 335.
Battery, A Human Storage, 339

C

Crocker Wheeler Electric Co., 1, 295
Contract, An Important, 3
Corporations, New, 3, 17, 37, 51, 65, 79, 91, 111, 123, 134, xii of May 7, 14, 21, 28, June 4, 11, 18, 25, July 2, 278
Convention, Fifteenth, of the N. E. L. A., 4, 15, 18, 33, 39, 63
Competition in the Electrical Business, 4
Chicago Letter, Our, 5, 58, 67, 81, 93, 107, 121, 133, 159, 171, 183, 195, 207, 219, 231, 243, 271, 285, 299, 335
California Electrical Society, 5
Chandler, A. B., at the N. Y. Electric Club, 6
*Cutter's Lamp Supporting Pulley, 7
*Controller, Edison Elevator, 8
Consolidation of the Edison General Electric Co. and the Thomson-Houston Electric Co., 12
*"C. & C." Electric Coal Cutter, 13
*Coal Cutter, Electric, 13
Chabry, M., Experiments, 15
Convention of the N. E. L. A., Fifteenth, 15, 18, 33
Combination, The, 18, 153
Cable proposed from Vancouver to Japan, 18
*Construction, Safety and Operation of Switchboards, The, by M. C. Sullivan, 26
*Craven, J. B., before the N. E. L. A., 30
Coffin, Chas. A., 38
*Cut-outs, Edison Ceiling, 40
Creede Electric Light and Power Co., The, 40
*Cut-out, A New Ceiling Pendant, 41
*Cut-out Box, The Wood Arc, 41
*Currents, Alternating, 43
Chicago & St. Louis Railroad, The Proposed, 47
Copper, Variability of the Electro-Chemical Equivalent of, 53
Carre, C., on The Proposed Electrical Underground Railway for Paris, 56
Coal Cutter, Electric, 61
Cooking by Electricity, 64
Cincinnati Letter, Our, 67
*Cable, Telephone Submarine, 68, 148
Cables, Insulation Resistances of Underground, 68
Chicago City Railway Co., 70
*Clutch, The Garvin Friction, 82
Cincinnati *Volksblatt*, From the, 83
Correlation of Electricity with Heat, S. Tolver Preston on the, 86
Catalogues, Sending, 90
Coil, An Improved Form of Induction, 91
*Controller, Bailey Current, 94
*Conductors, Molecular Movement in, 99
Creede, Colo., Lit by Electricity, 105
Cable Lines between the United States and the West Indies, 106, 151
Carnegie Music Hall Lectures, 108
Coxe's, Judge, Decision in the Storage Battery Case, 118
Circuits, Polyphase and Telephone, 119
Cantor Bill Signed by Governor Flower, 120
Circular Magnetization, 125
*Crystal Palace Electrical Exhibition, 138, 221, 235
Chicago Electric Club, 142
*Clutch, A New Hydraulic, 143
Central Building, N. Y., The, 143
*Crocker-Wheeler Pivoted Fan Motor, 161
*Connecticut Electric Company's Electric Light Station, 165
Central Electric Company, 169
*Cables, Edison-Lead Covered, 172
*Call, Varley's Time, 173
Cranes at the World's Fair, Electric, 173
*Crane, A German Electric Traveling, 174
*Cutter's Conduit Connector, 175
*Call System, Messenger, 179
*Chapman Valve Manufacturing Company, The, 184
Citizens' Electric Illuminating Company, 188
Cleveland Electric Club, 189
*Clutches at Columbus, O., Giant, 191
*Coil, Paul's Ohm, 198
Connecticut Legislature, 195
Coast Telegraph Communication, 195, 197
Canadian Electrical Association, 201, 206, 255
*Chicago and St. Louis Electric Railway, The Proposed, 201, 206, 230
*Cleat, A Two-Wire Porcelain, 209
Catalogue, 210
Culled from the Lay Press, 211
Contract for Supplying Lights at the World's Fair, 214
Cable between Africa and Brazil, 215
*Crystal Palace, Telephone Receivers at the, 221
Combination, Lighting, at Kansas City, 223
*Currents, Distribution of Rotary, 243
*Controller for Railway Motors, 244
*"C. & C." Switches, 247
Catalogue of E. W. Bliss Co., 249
Certificate of Death, 251, 256
Census Office Telephone Report, 255, 288
Chicago Water, 256
Currents, Alternating, of High Frequency, Their Physiological Effects, 259
*Copper Refining, by F. B. Badt, 259
Convention Telegraph Service, 263
*Clutch, The Bliss, 265
Companies, Formation of New Electric, 271, 291, 303, 315, 327, 328, 340
*Cyclone's Visit to a Telephone Exchange, 279
Canadian Niagara Power Company, The, 279
Cables in the North River, Telephone, 279
*Clock, An Electric Tower, 280
Copper, Anaconda, to be Refined Electrolytically 281
Christian Endeavor Delegates, 284
Convention of Phonograph Companies, 295
Clam Bake at Providence, 299
*Conover Condensers, The, 300
*Condensers, The Independent Steam Engine, 300
Coal-Cutting by Means of Electricity, 305
Cable to Honolulu Proposed, 305
Carbons, Cause of Unequal Wearing Away, 307
Cuttriss Carbon Relay, The, 308
Cable Proposed Between Vancouver and Australia, 310
*Currents, Alternating, Note on Some Experiments, 312
*Catskill Mountain Lightning, 317
Cars for Rent, Electric, 318
Cables in Use on the Brooklyn Bridge, 321
Cables, The Kerite, 323
Catalogue of the Bryant Electric Company, 323

*Computer, An Electric Wire, 326
*Carpenter Standard Rheostat, The, 330
*Catelectric Apparatus, 351
Convention of Electric Fixture Dealers, 333

D

Delegates on their way to N. E. L. A. Convention, 12
Decennial Number Receives Commendation, Our, 18, 19, 38, 39, 50, 53, 63, 67, 69, 73, 87, 106, 110, 111, 133, 172.
*Delany Crowfoot Zinc, The, 41
Dixon Crucible Company's Editorial Pencil, 52
Discharges Consisting of Moving Luminous Clouds, 53
Dubuque Street Railway Co. To Adopt the Overhead System, 56
*Dynamic Induction at High Potentials and Frequencies, by Prof. Elihu Thomson, 78, 80
*Drilling Machine, 96
*Dolbear, Prof. A. E., Before the American Institute of Electrical Engineers, 99
Denver Electric Co., The, 117
*Dewey's Electric Railway System. 119
*Discussion of H. F. Parshall's Paper, 154
Detroit Electrical Works, 175, 181
*Dynamos, Sparking and Flashing of, 179
Denver Electric Society, 187
Denio Auxiliary Fire Alarm System, The, 193
*Dobrowolsky on the Protection of Telephone Lines Against Induction, 195
*Die-Slotter, Garvin's, 198
*Dynamo, The Fyke & Harris, 199
*Dynamo, An English Train Lighting, 223
Deacon, The Patent Electrical, 225
Diver's Telephone, 255
*Dynamo of the Detroit Electrical Works, 276
Dispatches, Efficient, 277
*Dynamo Indicator, or Instantaneous Curve-Writing Voltmeter, A, by Geo. S. Moler, 282
*Dynamos Operated by Gas Engines, 283
Dynamos for Fire Alarm Systems, 284
Dock Lighting by Electricity, 308
*Duncan, Dr. Louis, on Experiments With Alternating Currents, 310
Directory, A Complete Telephone, 318
*Drill, The Electric Percussion, in Theory and Practice, 319
Dennis, Thomas T., Death of, 326

E

Electricity in a Modern Residence, by H. Ward Leonard, 2
Edison's Water Scheme, 4
Electrical Press, The, 4
*Electric Launches at the World's Fair, 4, 80, 147, 215, 281, 333
*Edison Transformer, New, 8
*Edison Elevator Controller, 8
Edison-Thomson-Houston Consolidation, 12, 18, 146
*Evans' Friction System of Driving Dynamos, The 12
Electric Heating, 13, 18, 79, 158
Electrolytic Gas Experiments, 15
*Engine, The American High Speed, 15
Electrical World, The, vs. The Electric Age, 33
*Electric Lighting of Buoys in New York Harbor, 35, 38
Electric Traction, 38, 66, 109
Electricity, Is it a Manufactured Product ? 38
*Edison Ceiling Cut-Outs, 40
*Edison General Electric Company's Mining Plant, 42
*Experiments by Prof. Elihu Thomson, 43
*Electrolier at Tenderloin Club, N. Y., 49
Electricity, 50, 284
Electrocution, 52, 63, 91, 92, 108, 122, 186, 342
Electrical Notes, 53
Electrolytes, 53, 78
Electrical Engineer, An Article Taken From The, 57
Electrical Distribution, Developments of, 60
Electricity for Cooking, 64
Edison Electric Illuminating Co., The, 65, 122, 291
Enamel, Anti-Sulphuric, 70
Elmira Municipal Improvement Co., 70
Electrical Industry, The, 80
Edison Dinner, An, 82
*Electric Appliances for Theatres, 83
*Edison Stage Regulator, 83
Edson, Marmount B., Death of, 93
*Edison Car Switch and Controller, 94
Electricity at the World's Fair, 100, 156
*Edison Rheostat, A New, 110
*Electric Construction & Supply Company's New Meter, 113
Electric Morality, 119
Erie Telephone Company, 119, 326
"*Electrical Progress and Development*," 120
*Eickemeyer-Field Motor and Truck, 124
*Edison Direct Coupled Generators and Engine, 125
*Engine, Edison Triple Expansion, 125
Electrical Methods of Analysis, 127
*Edison Safety Catch Holders, 135
*Edison Search-Light Projector, 151
Empire City Subway Company, 153
*Edison Telephone Patents, The, 158, 160, 298
Electric Merchandise Company Is No More, 164
Electrician and the Sparrows, An, 166
Electricity is, What, by Prof. W. W. Jacques, 167
Electrician Wanted by the Government, 169
Electric Light and Outdoor Pastimes, The, 170
*Edison Lead Covered Cables, 172
Edison Suit Begun at Trenton, 173
Electrical Forging Company, The, 173
Engineer, From the London, 178
*Edison Electric Pump, An, 184
Edison Phonograph and the Bettini Micro-Phonograph. 186
Electric Belle, An, 192
Experiments, Brilliant, 193
Electricity in Therapeutics, 193
Electrolytic Experiment, An, 196
*Edison Tank Pump Regulator, 199
Engineers, Some Points for the, 204
*Express, Adams' Electric, 201, 206
Electricity Stored, 206
Engine for the World's Fair, 210
Electro-Medication, by E. W. Murray, M. D., 214
Electricity and Fires in England, 215
Electricity and the Law, 222, 238
*Edison Controlling Table for Street Railway Stations, 222
Engineer, Electrical, The Technical Education of the, 228
Evening Sun Comments on An Electrical Storm, 230
Edison Wins, 231, 242
Electricity, Human, 235
Edison, Thomas A., on Insulation, 237
Electricity Scolded, 242
*Eickemeyer-Field Manufacturing Co., 251
*Engine for Electric Railway Service, 255
*Engine, Harrisburg Ideal, 261
Education, Electro-Technical, 262
Electricity, Its Future, 277
Electricity Cannot Be Stolen, 279
*Electricity in Bituminous Mining, by Elmer A. Sperry, 286
Electrical Time Co., 289
Exhibition of Electrical Apparatus, 293
Edison-Sawyer-Man Lamp Case, 298
Electricity in Railroad Shops of C. A. Seley, 301
Electrical Review, London, Articles from the, 305, 308
Exchange, The Strowger Automatic Telephone, 310, 322
Electrolysis, Problems of Commercial, 332
Experiments with a Balloon at Stanford Bridge Grounds, 335

F

Fifteenth Convention N. E. L. A., 15, 18, 33, 39, 63
Francisco, M. J., Report of Committee on Underground Conduits and Wires, 16
*Foote, Allen R., before the N. E. L. A., 27
*Fixtures, Unique Electric Lighting, 49
Frolich, Dr. O., on the Electrical Production of Ozone, 53
Forbes, Prof., on the Development of Electrical Distribution, 60
Framingham Brass Manufacturing Co., 60
Fireflies from Cuba, 73
Fires and Electricity, 80, 81, 117
*Fowler's Speed Indicator, 87
Frank Leslie's Weekly, 92
Flour Mills, Magnetic Separation in, 101
*Fan Motor, 110
Fire in the G. N. W. Telegraph Offices, 110
Fog Dissipator, Electric, 117
Fresh Air Advocated, 120
*Fan, A New and Noiseless Electric, 123
Fire-Proof Building, 123
*Fare Register, A New Portable, 137
Fibres for Suspension Purposes, 141
French Cable Telegraph Co., 151
Ffrench, Charles, Some English Measuring Instruments, 153
Faure's Process of Producing Aluminium, 158
Forster's, W. G., Letter to the *Herald*, 166
*Fixture, Reflector, 175
Farming by Electricity, 182
Films, Metallic, Passage of Radiation from the Cathode Through Them, 182
Faraday's Discoveries Anticipated by Renatus Des Cartes, One of, 186
*Falls Rivet and Machine Co.'s Clutches, 191
Fire Alarm System, The Denio Auxiliary, 193
Fire in the House of Representatives, 201
Foster, Horatio A., before the American Institute of Electrical Engineers, 204
Faure Patent in Germany, The, 217
Flash Lights for Mars, 222
Fifth Avenue Wants Arc Lamps, 241
*Fulmen Arrester, The, 244
Fire in the Edison Building, 249
Fog Signaling, Electric, 269
Field's, Cyrus W., Illness, 270
*Field, Cyrus W., Death of, 281, 284, 290
Flower's, Governor, Gift to the N. Y. Press Club, 296
Fire at the Edison Plant in Schenectady, 299
Frankfort International Electrical Congress Report, 322
Farm Products Transported by the Electric Railway, 334
Foote, Allen R., Article by, 335

G

*Galvanometer, Reflecting, 12
Generator, Holtzer-Cabot, 13
Gas Experiments, Electrolytic, 15
Grang, Carl, Article on "Electricity," 50
Grawinkel, C., on Accumulators for Telegraph Work, 55
*Germania Universal Shade-Holder, 57
*Ganz & Co.'s Niagara Falls Plan, 59
Gases Under the Electric Discharge, 63
General Electric Co., The, 65, 92, 106, 120, 146, 156, 158, 163, 205, 275, 291
Grawinkel, C., Insulation Resistances of Underground Cables, 68
*Generator, Edison, 73
Gould & Watson Co. and John Pratt Co. Consolidation, 83
Government Contract for Cold Rolled Steel, 87
Gulcher and Pintsch Thermopile, The, 118
Grant Monument, 120
*Generators, Edison, 125
Gray, Prof., Visits New York, 129
"Grain of Sand on the Track, The," 132, 135,
General Electric Company, Incorporation of the, 158, 163
*Gas Lighter, Electric, 172
*German Electric Traveling Crane, A, 174
German Patent in 1891, 175
Gettysburg, A Visit To, 183
Graphite, 188, 209, 318
*Graves Low Tension Arc Lamp, The, 189
*Galvanometer, Paul's Reflecting, 193
*Garvin's Die-Slotter, 198
Garner, Prof. R. L., in the *North American Review*, 198
Glass Used in the Manufacture of Incandescent Lamps, 241
Gould, Geo. J., in *Once a Week*, 242
*Greeley's Crow Foot Anchor, 282
Gardner, Prof. W. A., Before the Association of Railway Telegraph Superintendents, 294, 298
*Goulds' Electric Mine Pump, 296
Gauss and the Telegraph, 322
*"Gem" Speed Alarm Indicator, The, 323

H

*Hysteresis, On the Law of, by Chas. Proteus Steinmetz, 10, 35
*Holtzer-Cabot Apparatus, 13
Heating by Electricity, 13, 18, 79, 158
*Hering, Carl, Before the N. E. L. A., 27
How to Fire a Boiler, by Richard Hammond, 27
Hammond, Richard, Before the N. E. L. A., 27
Heisler Co., Plant Erected by the, 34
Heat Radiation of Rarefied Gases Under the Electric Discharges, 63
Holborn, L., on the Hardening of Magnet Steel, 73
Hearing on the Telephone Bills, 82
Hale, Rev. Edward Everett, D. D., A Tribute to, 136
Heisler Electric Company's Street Lighting System, 143
*Hudson River Telephone Cable, 148
How She Enjoyed Herself, 169
Houston, Prof. Edwin J., Before the Franklin Institute, 190, 194
Houston, Prof. Edwin J., Before the Brooklyn Institute. 202, 206
Hering, Carl, Before the Franklin Institute, 203
*Hoist, Electric, for Flat Wire Rope, 205
*Hoist, "C. & C." Electric Mine, 231
Holland and the Electric Light, 247
*Heater, A New Feed Water, 254
*Heat Switch, The. 255
Houston, Prof. Edwin J., Before the Franklin Institute, 259
Harrisburg Ideal Tandem Compound Engine, The, 261
Hassler, R. H., Before the American Institute of Electrical Engineers, 266
Homestead, Pa., Strike, 270, 280, 284
Halstead, Murat, on Cyrus W. Field, 290
Hanna, Aaron, Killed by Electricity, 311
Howard, Ex-Gov. Henry, 314
"Huckleberry" Road, The, 318, 322
How Cyrus Laid the Cable, 331
Hansbrough's Body a Storage Battery, 339

I

Indianapolis Letter, Our, 5
*Interior Conduit and Insulation Co.'s New Switch, 6
Insulation, S. I. R. Seamless, 12
International Okonite Co., Ltd., Entertain, 31
International League of Press Clubs, 84, 124
*Indicator, Fowler's Speed, 87
Insulating against High Pressures, by Messrs. Bourne, 90, 92
Ice Cutting with an Electric Wire, 94
*Inventions, Progressive Electrical, 108, 197
*Interior Conduit and Insulation Company's Switches, 109
Indicator, A Simple Magnetic, 115
*Instrument, An Electrical Surgical, 122
Injunction Dissolved, 123
Instruments, Some English Measuring, 153
Insanity from Lightning Shock, 182, 310
Illumination, The Measurement of, 191
International Ore Separating Company, 192, 217, 243, 275
Insulation, by Thomas A. Edison, 237
*Irons for Electrical Purposes, Their Magnetic Permeability, 240
Industries, London, From, 242
Installation at White Plains, 247

NEW AND VALUABLE BOOKS
ON
ELECTRICITY AND ITS APPLICATIONS.

ELECTRICITY AND MAGNETISM.

Practical Electricity.
BY W. E. AYRTON.

A Laboratory and Lecture Course for first year of Students of Electrical Engineering, based on the Practical Definitions of the Electrical Units. **Numerous illustrations. Cloth. Price, $2.50.**

The A. B. C. of Electricity.
BY W. H. MEADOWCROFT.

Giving, in simple language, a general outline of the Science of Electricity. ENDORSED BY THOMAS A. EDISON. **108 pages. Illustrated. Cloth. Price, 50c.**

Elements of Magnetism and Electricity.
BY ANGELL.

With Practical Instructions for the Performance of Experiments and the Construction of Cheap Apparatus. **Numerous illustrations. Cloth. Price, 60c.**

Electricity in Theory and Practice, or the Elements of Electrical Engineering.
BY LIEUT. BRADLEY A. FISKE, U. S. N.

Fifth Edition. **Cloth. 270 pages. 180 illustrations. Price, $2.50.**

THE TELEPHONE.

The Telephone.
BY PROF. A. E. DOLBEAR.

An Account of the Phenomena of Electricity, Magnetism and Sound, as involved in its action, with directions for making a Speaking Telephone. **Cloth. Illustrated. Price, 50c.**

Practical Information for Telephonists.
BY THOS. D. LOCKWOOD.

Revised. **New Edition. 192 pages. Cloth. Price, $1.00.**

The Electric Telephone.
BY PROF. GEO. B. PRESCOTT.

Second Edition. Revised and Enlarged. Contains descriptions of new Telephone Inventions and Devices, and includes full descriptions of Hughes' Induction Balance and Sonometer, Boudet's Medical Microphone, Edison's Phonograph, Taintor's Graphophone, the Metropolitan Telephone Central Station, Simultaneous Telephone Transmission on the Same Wire, Installation of Telephone Offices, Construction of Telephone Lines, Aerial and Underground, The Electric Subways in New York, Long-Distance Telephone Lines, and Statistics of the American Bell Telephone Companies. **516 illustrations. 795 pages. Price, $6.00.**

MISCELLANEOUS.

Bell Hangers' Hand-Book.
BY F. B. BADT.

For those Engaged in selling, installing or handling Electric Batteries, Electric Bells, Elevator, House or Hotel Annunciators, Burglar or Fire Alarms, Electric Gas Lighting Apparatus, Electric Heat Regulating Apparatus, etc. **97 illustrations. Cloth. Price, $1.00.**

Electric Bells and All About Them.
BY S. R. BOTTONE.

Giving full details as to the Construction of Batteries, Bells, Pushes, Detectors, etc., the Mode of Wiring, Testing, Connecting, Localizing Faults, in fact, directing careful attention to every case that can present itself to the Electric Bell Fitter. **100 illustrations. 196 pages. Cloth. Price, 50c.**

Electro-Magnets.
BY COUNT DU MONCEL.

The Determination of the Elements of their Construction. **Boards. 122 pages. Price, 50c.**

Electricity in Daily Life.
A Popular Account of the Science and Application of Electricity to every-day uses.

CONTENTS.—Electricity in the Service of Man; The Electric Motor; The Electric Railway; Lighting; The Telegraph; Cable-Laying; Electricity in Warfare—In the Household—Applied to the Human Body. **120 illustrations. Cloth. Price, $3.00**

The Galvanometer and Its Uses.
BY C. H. HASKINS.

A Manual For Electricians and Students. Fourth Edition. Revised. Morocco. **Illustrated. Price, $1.50.**

Induction Coils.—How Made and How Used.
Boards. Price, 50c.

Electrical Engineers' Pocket Book.
BY H. R. KEMP.

Modern Rules, Formulæ, Tables and Data. Leather. Price, $1.75.

Electrical Measurement and The Galvanometer.
BY THOMAS D. LOCKWOOD.

Explaining its Construction and Use. **Cloth. Illustrated. Price, $1.50.**

Lectures on The Electro-Magnet.
BY SILVANUS P. THOMPSON.

Cloth. Price, $1.00.

Electric Light Fitting.
BY J. W. URQUHART.

A Hand-Book for Working Electrical Engineers, Embodying Practical Notes on Installation Management. **Numerous illustrations. Cloth. Price, $2.00**

POWER.

Electric Motors.
BY S. R. BOTTONE.

A Hand-Book for Amateurs and Practical Men. **Illustrated. Cloth. 132 pages. Price, $1.20.**

The Electric Motor and Its Applications.
BY T. C. MARTIN AND J. WETZLER.

New and Greatly Enlarged Edition. This timely work is the first American book on Electric Motors, and deals exclusively and fully with the modern Electric Motor in all its various practical applications. **300 pages. 275 illustrations. Price, $3.00.**

The Electric Railway of To-day.
BY H. B. PRINDLE.

Fully illustrated. Price, 50c.

The Electric Railway.
BY FRED H. WHIPPLE.

259 pages. 117 illustrations. Price, $1.00.

ELECTRIC LIGHTING.

Elements of Electric Lighting.
BY PHILLIP ATKINSON.

Including Electric Generation, Measurement, Storage and Distribution. **Sixth Edition. 104 illustrations, 260 pages. Cloth. Price, $1.50.**

The most complete and comprehensive treatise on Electric Lighting ever published; giving the latest practical facts with the least amount of technicality and mathematical formulæ; with full treatment of the Dynamo, the Storage Battery and the principles of Direct and Alternate Current Lighting.

Dynamo Tenders' Hand-Book.
BY F. B. BADT.

General rules for the care and operation of electric light installations in simple and plain language. Invaluable to dynamo tenders, linemen and others who wish to familiarize themselves with the principles underlying the care and operation of electric light installations. SEND FOR NEW EDITION WITH MOONLIGHT SCHEDULE FOR 1891. **Illustrated. Cloth. Price, $1.00.**

Incandescent Wiring Hand-Book.
BY F. B. BADT.

Containing full instructions for Incandescent Wiring, and complete information concerning Methods of Running Wires, Location of Safety Devices and Switches, Splices, Insulation and Testing for Faults, Wire Gauges, General Electrical Data, Calculating Size of Wires, Wiring of Fixtures, Elevators, Buildings, Isolated and Central Station Plants. New Edition. **Illustrated. Cloth. Price, $1.00.**

The Dynamo.—How Made and How Used.
BY S. R. BOTTONE.

A Book for Amateurs. Sixth Edition. **39 illustrations. 98 pages. Price, $1.00.**

How to Make a Dynamo.
BY ALFRED CROFTS.

A Practical Book for Amateurs. Containing Numerous Illustrations and Detailed Instructions for constructing a small Dynamo. Third Edition. Revised and Enlarged. **Cloth. 104 pages. Price, 50c.**

Incandescent Electric Lighting.
A Practical Description of the Edison System, to which is added a Description of the Edison Electrolytic Meter, and a paper on the Maximum Efficiency of Incandescent Lamps. **Boards. Price, 50c.**

Alternate Current Machinery.
BY GISBERT KAPP.

Illustrated. Boards. Price, 50c.

Practical Electrical Engineering.
A complete treatise on the construction and management of Electrical Apparatus as used in Electric Lighting and the Electric Transmission of Power. By men eminent in their respective departments. To be completed in 18 monthly parts. Sold only by subscription. **With many hundreds of illustrations. Each part, 75c.**

Electric Light.—Its Production and Use.
BY J. W. URQUHART.

Fourth Edition. Rewritten with large additions. **Numerous illustrations. Cloth. Price, $3.00.**

Practical Dynamo Building for Amateurs.
BY EDWARD WALKER.

How to Wind for any Output. Numerous illustrations. Boards. Price, 50c.

Copies of any of the above books, or any electrical work published, will be mailed to any address, **postage prepaid, on receipt of price.**
Remit by Express or Post Office Money Order, Postal Note, Draft or Registered Letter. Address

ELECTRICAL REVIEW PUBLISHING COMPANY,
P. O. Box 3329. 13 PARK ROW, NEW YORK.
